BRAND IDENTITY GUIDE

01 | Logo System

Primary Logo

A Friend for Every Adventure

Secondary Logo

The Ducks 'n Puddles logo system consists of a Primary Logo and a Secondary Logo, designed to provide flexibility while maintaining a consistent brand identity across all applications. The Primary Logo serves as the main brand signature, featuring the complete visual identity with the refined water splash illustration, playful duck mascot, and custom water droplet apostrophe. The Secondary Logo offers a simplified alternative for smaller or space-limited applications, preserving the brand's core visual elements while ensuring clarity, recognition, and consistency across both print and digital media.

02 | Logo Applications

Brand Icon

Mascot Icon

Water Splash Icon

The Ducks 'n Puddles icon system provides a flexible set of supporting brand assets for a wide range of applications. The Brand Icon, Mascot Icon, and Water Splash Icon can be used individually or together to strengthen brand recognition while maintaining a fun, friendly, and consistent visual identity across print and digital media.

The clear space is determined by the width of the mascot icon (X). Maintain a minimum clear space of one X around the logo to ensure maximum visibility and legibility.

To ensure consistent recognition and legibility, the Ducks 'n Puddles logo system includes recommended minimum reproduction sizes and mandatory clear space requirements. The minimum sizes help preserve clarity across both print and digital applications, while the clear space protects the logo from surrounding elements, maintaining visibility, balance, and maximum brand impact in every use.

04 | Incorrect Logo Usage

X Do Not Stretch

X Do Not Change Colors

X Do Not Rotate

X Do Not Add Effects

X Do Not Rearrange Elements

X Do Not Place on Busy Backgrounds

The Ducks 'n Puddles logo should always appear in its approved artwork. Avoid altering its proportions, colors, orientation, visual effects, or element arrangement, and never place it on backgrounds that compromise legibility. Consistent usage strengthens brand recognition and preserves the integrity of the identity system.

05 | Brand Assets

Wordmark Variations

Monogram Variations

Wave Graphic

The Ducks 'n Puddles brand assets extend the visual identity beyond the primary logo. The circular signature, secondary wordmark, DNP monogram, and wave graphic provide flexible branding elements for use across print, packaging, digital media, and promotional materials while ensuring a consistent and recognizable brand experience.

08 | Pattern System

Playful Color Pattern

Primary Pattern

Secondary Pattern

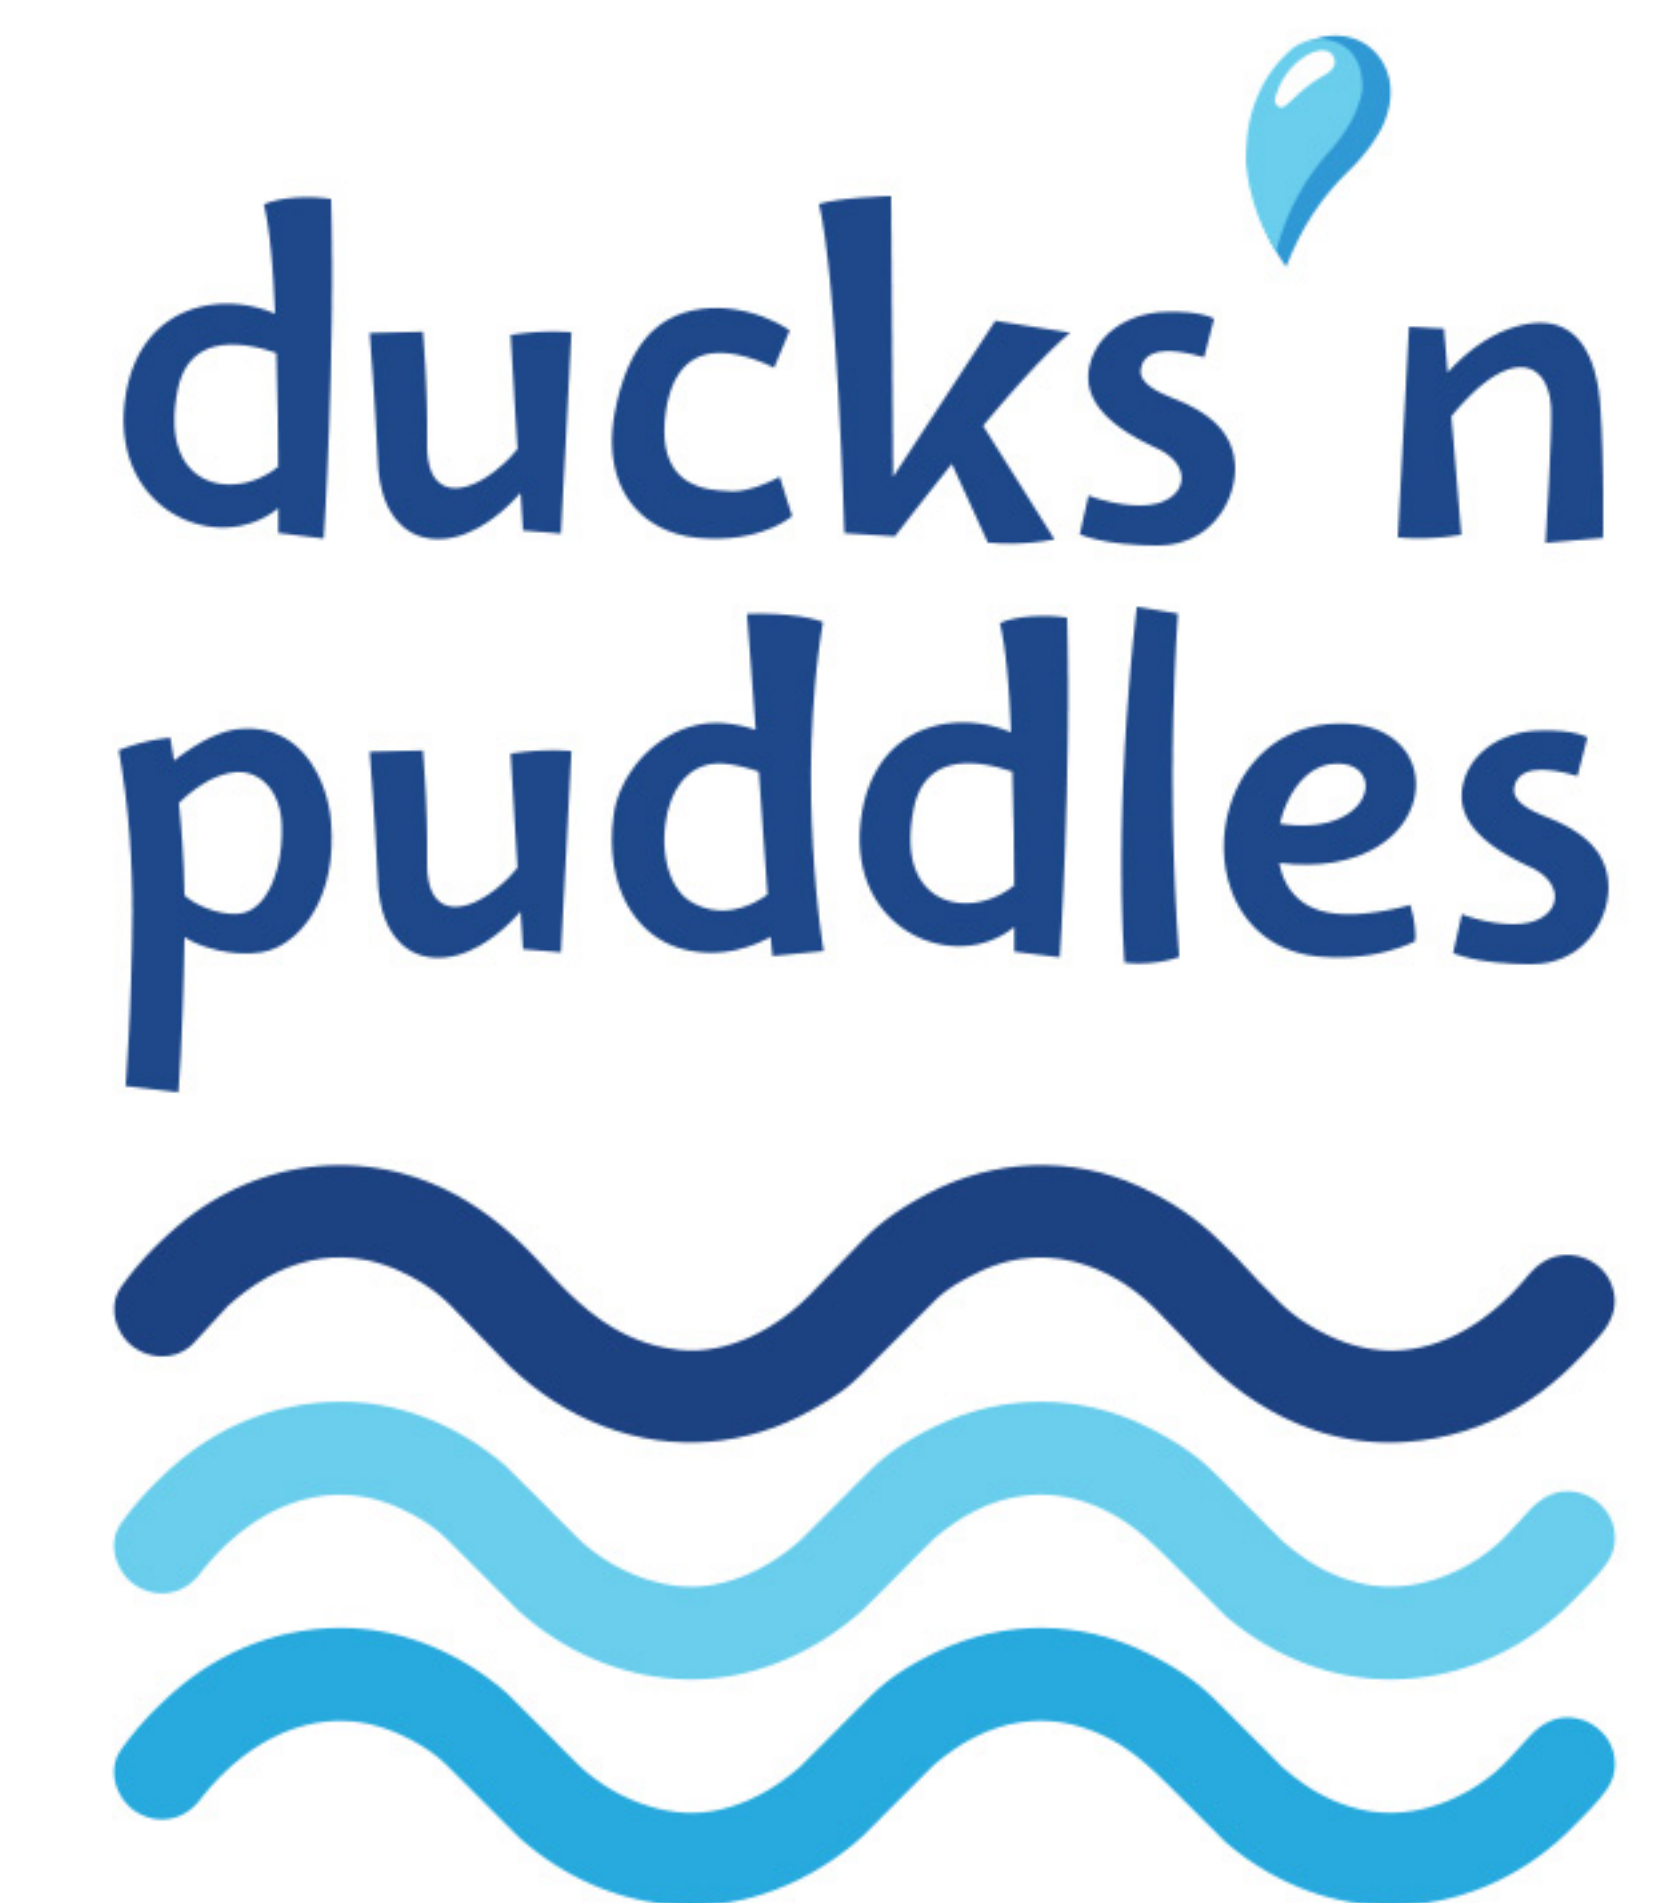

The Ducks 'n Puddles pattern system combines the DNP monogram, wave graphic, and duck footprints to create a playful and cohesive visual identity. These patterns are designed for use across packaging, print, digital media, and promotional materials while maintaining a consistent brand experience.

09 | Product Identity

Just as an optional suggestion, I added each character's name to the front of its matching bottle using the character's signature color on a transparent sticker. Since the main brand logo is already featured on the bottle sleeve, this small detail gives each bottle its own personality and makes the product range feel more engaging for children. I think it enhances the overall look, but this is entirely optional and can be omitted if you prefer.

Every great adventure begins with a smile.

Thank you for being part of the Ducks 'n Puddles journey.
